PROFESSIONAL EXPERIENCE

Development Intern July 2019 – August 2019
The Echo Group Conway, NH

- Enhanced the iPad and Tablet user experience of a Java/React web application
- Improved the efficiency of the existing code base by memoizing functions using the latest version of React
- Revamped the usability of various forms and pages using CSS styling and JSX
- Working with Agile methodology using Jira and Bitbucket

Studio Assistant Sept. 2018 – May 2020
Engineering Studio Middletown, CT

- Training students in the use of power tools, laser cutters, 3D printers, and soldering irons
- Advising students facing electrical and mechanical design challenges to achieve their design goals
- Assisting with the design and implementation of circuitry and mechanical systems

Substitute Teacher March 2017 – Present
MSAD 55 Hiram, ME

- Leading an elementary school classroom of ~20 students in mathematics, reading, and writing activities
- Working 1 on 1 with students on behavioral plans and with special needs to facilitate greater learning
- Facilitating activities safely within the Physical Education program such as basketball, skiing, and sledding

ADDITIONAL EXPERIENCE

Developer and Admin January 2019 – May 2020
Wescam Middletown, CT

- Rebuilding the Python-based Stack with a RESTful API
- Coordinating with other administrators and developers on a Django powered web application
- Deploying a web application using Nginx on a Linux Server AWS EC2 instance
- Dockerizing the existing application for easier development and deployment
- Managing feature upgrades using GitHub Issues

Match Secretary, Jan. 2018 – Dec 2018
Wesleyan Men's Rugby Middletown, CT

- Scheduling games, buses, trainers, and other logistical work for the team
- Communicating with other teams, referees, and school administrators to ensure the team's needs are met
